As a rule, we receive the information from you personally; this also applies to medical reports and/or laboratory results or ECG analyses that you provide to us. If we receive personal data from third parties, we will inform you of the specific data we have received and the source from which it was obtained.

If you are our guest as part of a group booking, we usually only receive your first name and surname, your address, your arrival and departure dates, and the duration of your stay. In some cases, further details may also be provided as part of such a group booking. In any case, you will receive separate information from us in such instances. It is also possible that, as part of a preliminary enquiry regarding the possibility of accommodation at our establishment, we may receive personal data (first name, surname, address, health insurance details) from your health insurance provider, and, where applicable, even data falling within a special category (health data). In this case, you will be informed of this by both us and the health insurance provider.

You are contractually obliged to provide us with your personal data, including data falling within the special categories. If you do not wish to provide the data, or do not wish to provide it to the extent requested, this may mean that – depending on which data you do not wish to provide –

we will be unable to enter into a contract with you or to perform an existing contract, or to do so properly.

You are not obliged to provide any information when giving your consent to receive information and promotional material. Nor are you obliged to consent to the disclosure of certain special category personal data to specific recipients. Your consents are voluntary.

Your treatment and patient data are subject to the statutory retention period set out in Section 630f(3) of the German Civil Code (BGB): We generally retain patient records for a period of 10 years following the completion of treatment, unless other regulations require a longer retention period. Longer retention periods may arise in particular from tax and commercial law provisions (e.g. Section 147 of the German Fiscal Code (AO), Section 257 of the German Commercial Code (HGB)) as well as from specific statutory retention obligations (for example, for X-ray and radiation protection records). Otherwise, your personal data will be erased or blocked as soon as the purpose for which it was stored no longer applies. Data may also be retained if this is provided for by European or national legislators in EU regulations, laws or other provisions to which we, as the data controller, are subject. Data will also be blocked or deleted when a retention period prescribed by the aforementioned standards expires, unless there is a need to continue storing the data for the conclusion or performance of a contract.

Any restrictions are set out in Article 20 of the GDPR.

7.7. Right to object:

Where personal data is processed to pursue legitimate interests (Article 6(1)(f) of the GDPR), you may object at any time, with future effect, to the processing of your personal data on grounds relating to your particular situation (Article 21 of the GDPR). In the event of an objection, we must cease any further processing of your data for the aforementioned purposes, unless,

- there are compelling legitimate grounds for the processing which override your interests, rights and freedoms, or
- the processing is necessary for the establishment, exercise or defence of legal claims.

You may object at any time, with future effect, to the use of your data for the purposes of direct marketing; this also applies to profiling insofar as it is related to direct marketing. In the event of an objection, we must cease any further processing of your data for the purposes of direct marketing.

7.8. Right to lodge a complaint:

In the event of a complaint, you may contact the relevant data protection supervisory authority at any time.
